Security

- **Operational Security:**

- US reinforcing forces, in principal, are responsible for their own security. Support will be provided by the ROK upon request.

- **POW Camp Security:**

- Security personnel requested by the US to provide security at POW Camps are included in the “Personnel” portion of this WHNS (plan).

- **Installation Security:**

- Existing contract providing installation security guards services to USFK installations has been exempted from mobilization and personnel will remain available for security services to US Forces in wartime

UNFORESEEN PROCESS

- **Unpredictable Nature of War**
- **We've increased the quantity & quality of the requests during Exercises**
- **Competes with and Receives Second Priority to ROK Execution of the WSP**
- **UFL&RSOI Experience: ROK MND Logistics Bureau has hard time processing requests.**
- **Inefficient ROK approval process:**
 - **ROK MND vs SROKA**

WHNS Testing

- ❖ **Command Post Exercises (CPX)**
- ❖ **Field Training Exercise (FTX)**
- ❖ **Site Survey (SS)**
- ❖ **Coordination Exercise (COORDEX)**
- ❖ **Communication Exercises (COMEX)**

Field Training Exercise (FTX)

- ❖ **An exercise approved and coordinated by ROK MND and USKF-J4 WHNS in which partial assets or complete assets listed in a WHNS Record are activated, called forward, provided to US unit, and then returned to the ROK providing source(s).**
- ❖ **Depending on the type of asset, some assets maybe be permanently maintained by the US unit.**
- ❖ ***Funded by C/J-3 Exercise Division.***

Site Survey (SS)

- ❖ **An event, preferably combined, in which a US unit conducts a terrain walk of an area, facility, and/or delivery site listed in an approved WHNS record.**
- ❖ **The intent is to validate the required area, update sketches, strip maps, confirm link-up locations and plans, and review requirements, etc.**

Coordination Exercise (COORDEX)

- ❖ **An event in which US and ROK units validate and refine how a WHNS asset and/or service will be transferred, review associated checklists for receipt of WHNS, confirm appropriate WHNS forms are on hand, and refine units' SOPs.**
- ❖ **US units must conduct internal COORDEXs to ensure they have included in their mission analysis -- link-up coordination, receipt procedures, transfer procedures, removal/distribution procedures, sustainment procedures, and**

Communications Exercise (COMEX)

- ❖ **An exercise in which US units validate ROK POC information in a WHNS Record(s) from the existing approved WHNS Plan by contacting the ROK unit to validate phone number, dialing procedures, and ROK POC acknowledgement of the WHNS Record.**

RELATED PROGRAMS

- **Wartime Movement Plan (WMP) (C/J/G-4 Trans)**
 - Provides movement through a combined system to a combined force
 - WHNS is limited to ROK support to US Forces
 - General Rule: If you want to hire a moving van, it's WMP. If you want to rent a truck for a while, it's WHNS.
- **NEO Support (JTF NEO)**
 - Viewed by ROK as outside the scope of the WHNS Umbrella Agreement
 - Use the US Embassy - Ministry of Foreign Affairs and Trade link (MOFAT)
- **Wartime Critical Contracts & Pre-planned Contingency Contracting (J4 WHNS)**
 - Mechanisms for arranging support outside of mobilization
 - WCC: Armistice contract to continue during contingency
 - PCC: On-the-shelf contract for contingencies
 - Can be used for NEO

WHNS SUMMARY

- **ROK WHNS is a Critical Combat Multiplier for USFK to Provide Reception, Staging, Onward Movement and Sustainment, and allows us to flow combat forces early to generate combat power.**
- **Procedures are Comprehensive and Thorough**
 - **WHNS Program Effectiveness Hinges upon Planned Requirements Submissions and the WSP**
 - **WSP Provides 1500+ line-items of support; unforeseen requirements process**
- **Services must improve their mission analysis & WHNS Submission processes for their WHNS requirements.**
 - **Maximize internal unit staffing and**
